```
2.2 7/11/95
-----------
Christian Kern:
 * Spelling, and some suggestions for new stuff to inlcude

Young U. Ryu:
 * Spelling and some errors in latex

Cyril Goutte:
 * Some additions for math

Brian Ripley:
 * Spelling, LateX 95/12/1 compatibility
 * Some more real english .... :-)
 * AMS-LaTeX now prefers eucal to euscript, so he has altered both
   lssym.tex and lshort2e.sty.
 * He has corrected some examples in chapter 3 which would be regarded
   as bad practice in mathematical typesetting.
 * He has added a section on bold symbols, and conditionals for amsbsy.

2.1 17/6/1995
-------------
Rasmus Borup Hansen:
 * tonns of spelling mistakes and some suggestions for more logic ...

Josef Tkadlec:
 * some spellings
 * all new hopefully even more usefull maths tables ...

2.0 5/6/1995
-----------
Mike Ressler:
 * Fixed Loads of spelling Mistakes.
1.9.9: 16/5/95
---------------
Tobi:
 * General Makeover

 * Added Preface.

 * Added example to math.tex

 * Introduced intro environment. I am going to add a short describtion about
   what the user can expect, to each chapter.

 * Page Layout. spec.tex now contains a copy of the Geometry page layout
   parameters page. Provided by the layout package from the tools bundle.

 * newcommand, newenvironament and newtheorem are described.

 * new dynamic document title

 * using fancy headings for header.

1.2:  8/2/95
------------
Tobi:
Revoved all | |  in an attempt to make
the document latex2html compatible ... failed :-(
```

Elliot:
* Odd spelling mistakes

David Jones:
* "Whitespace Description" ...

Byron:
* Many Spelling fixes Some requests for examples

Partl:
* Fixed Irene Hyna addr

Martien:
* "Character" spelling

Claus:
* ref to indexing without backslash ...

1.1: 17/11/94

Eric:
* Spelling.
* Removed numerical from section 1.3.3 (suggesting \3 as a valid command)
* \quad as MATH spacing
* No Pagenumber on first Page

Mike:
* Fixed @{} Discussion (thanks)

David:
* Letter case in \hyphenation ignored
* ‘|-|.’’
* shelf\mbox{}ful because TeX can ‘forget’ {} after hyphenation attempt
* pointer to dcolumn package
* standard calsses assume [tbp] !
* Pointer to amstex and exscale package added to \big description
* Thanks for symbols.tex
* |*| and | | as forbidden delimiters with verb
* refrence to amsfonts removed
* LaTeX \vspace works within a paragraph ... (-> normally)
* Pointer to graphguide.tex

Tobi:
* ‘horizontal’ and Page Style Indexentries
* Odd Spell Fix
* pagestyle index entries
* Commented out display style example, to keep total size down to 58 Pages
* Fixed eufrak problem thanks David and Martien
