[5049] W. Wayt Gibbs. In focus: The magnetic attraction. Scientific American, 280(5):17–18, May 1999. CODEN SCAMAC. ISSN 0036-8733 (print), 1946-7087 (electronic). This brief article describes work by Richard M. Lienau and Laurence P. Sadwick (University of Utah electrical engineer) on magnetic memory chips capable of holding data for years without external power, operating at a speed of five to ten times that of current DRAM technology, and costing about the same as conventional DRAM.
