both IEEE 754 and S/360 formats, and a twenty-year retrospective in [1041]. In electronic mail dated Wed, 27 Jun 1990 11:55:36 EDT, Guy Steele reported that an intrepid pre-SIGPLAN 90 conference implementation of what is stated in the paper revealed 3 mistakes:

1. Table 5 (page 124):
   insert \( k \leftarrow 0 \) after assertion, and also delete \( k \leftarrow 0 \) from Table 6.

2. Table 9 (page 125):
   for \(-1:USER!("\"");\)
   substitute \(-1:USER!("0")\)
   and delete the comment.

3. Table 10 (page 125):
   for \( \text{fill}(-k, "0") \)
   substitute \( \text{fill}(-k-1, "0") \)
